Name of Organisation/Individual

Monique Wijbenga

What are the top policies from the Green Paper that the Government should focus on in the White Paper and why?

What policies from the Green Paper don't you support and why?

General Comment

To remove the excess red tape involved to put produce / product from paddock to plate or market.

I believe there are producers already going that way, as it has been too hard with the chain of responsibility laws and other laws that have been imposed in the past 15 years or so.
