Name of Organisation/Individual

Andrew Lang

What are the top policies from the Green Paper that the Government should focus on in the White Paper and why?

What policies from the Green Paper don't you support and why?

General Comment

a proper strategy to mitigate climate change/global warming. This includes far stronger stimulus to planting of commercial tree species on farms (as dispersed multi-purpose shelterbelts), a better support for decentralised biomass to energy plants utilising agribiomass as well as woody biomass and biowastes from regional communities, and RD&E systems to support these programs.
