## **What are the top policies from the Green Paper that the Government should focus on in the White Paper and why?**

We strongly support the Australian Government's focus on Farm Business Improvement (Policy Idea 12) to overcome the lack of financial literacy and business management skills that are a barrier to achieving better returns at the farm gate.

In particular, RBS advocates for the expansion of services provided under the RFCS Program to a broader target audience, with a strong focus on financial literacy that leads to farm business improvement.
