

Agricultural Competitiveness White Paper – Submission IP01
Practical WHS Solutions
Submitted 10 December 2013 via website's contact form

A great opportunity to embed Health and Safety into the future of agriculture in Australia...
I hope to see the issue of serious injury and fatality tackled. The cost of these sort of issues would surely be considered an unnecessary financial burden for the industry adding to its financial woes. What does a farmers life cost the industry? What about a couple of hundred?

There are people out here who give a damn and would like to do something about the welfare of farmers and their families, so please don't miss this opportunity to include this topic in the process.

Regards,

Matt Lamrock
